

SAURABH BISHT

Data Science | IIT Guwahati & NASSCOM Certified

bsaurabh833@gmail.com +91-7819076857 | [linkedin.com/in/saurabh-bisht-63345337a](https://www.linkedin.com/in/saurabh-bisht-63345337a) | <https://github.com/saurabhbisht98>

Delhi, India

CAREER OBJECTIVE

Detail-oriented Data Analytics professional with Advanced Certification from IIT Guwahati (E&ICT Academy) and NASSCOM Goldrated proficiency in Data Visualization & Analytics (94%). Proficient in Python, SQL, Power BI, and Excel with hands-on project experience in EDA, machine learning, and dashboard development. Seeking an entry-level Data Analyst role to drive datainformed decision-making.

KEY CERTIFICATION

- Advanced Certification in Data Science & AI**
(Offline Program) Electronics & ICT Academy, IIT Guwahati | AnalytixLabs may 2025 – February 2026
- Curriculum: Python for Data Analysis, SQL, Excel, Power BI, Statistics, Machine Learning, and real-world case studies.
- Hands-on offline program organized by Electronics & ICT Academy, IIT Guwahati.

EDUCATION

- Master of Arts (Economics)**
Sobhan Singh jeena University, Almora | 2021 – 2023
- Bachelor of Arts (Economics)**
Kumaun University, Nainital | 2017 – 2020

TECHNICAL SKILLS

Languages	Python, SQL
Tools	MS Excel, Google Sheets, VS Code, Jupyter Notebook, SSMS
Visualization	Power BI, Tableau, Matplotlib, Seaborn, Plotly
Python Libs	Pandas, NumPy, Scikit-learn
Databases	MySQL, MS SQL Server
Analytics	EDA, Data Cleaning, Data Visualization, Statistical Analysis, Feature Engineering
Soft Skills	Business Insight Communication, Problem Framing, Storytelling with Data

ACADEMIC PROJECTS

Sales Dashboard Project | Excel

- Created an interactive dashboard to analyze **sales & orders (2022)**
- Identified **top months, top states, and best-selling categories**
- Analyzed **customer behavior (age & gender)**
- Evaluated **sales channels performance**
- Used **Pivot Tables, Charts & Slicers**

Customer 360° & Sales Analysis (SQL Project)

- Performed data cleaning, transformation, and deduplication using SQL
- Built Customer, Order, and Store level insights (RFM, revenue, profit, segmentation)
- Used CTEs, window functions, and joins for advanced analysis
- Generated business insights on customer behavior and sales performance

Uber Trip Analysis Dashboard | Power BI

- Built an interactive dashboard using Microsoft Power BI to analyse booking trends, revenue, and trip efficiency.
- Created KPIs like Total Bookings, Revenue, Avg Booking Value, Distance & Time.
- Implemented dynamic measure selection using DAX and added slicers, tooltips, and drill-through for interactivity.
- Performed time and location analysis to identify peak demand and optimize operations.

Housing Price Prediction *Python, Scikit-learn, Pandas, Matplotlib*

- Built an end-to-end ML pipeline on 20K+ records covering EDA, feature engineering, modeling, and deployment
- Compared 6 regression models; Gradient Boosting achieved the best performance with **$R^2 = 0.84$ and RMSE ~\$42K**
- Engineered custom features and serialized the final model using joblib for production use

INDUSTRY JOB SIMULATIONS (FORAGE)

Data Science Job Simulation | BCG X

- Framed a business problem, conducted EDA and data cleaning on a churn dataset; performed feature engineering.
- Built a classification model, interpreted results, and prepared stakeholder-ready Insights & Recommendations.

Data Analytics Job Simulation | Deloitte

- Completed practical tasks in data analysis and forensic technology within a real-world consulting context.

CERTIFICATIONS

- Advanced Certification in Data Science – IIT Guwahati / E&ICT Academy
- Certified Data Analyst – Python | AnalytiX Labs
- Certified Data Analyst – Excel, SQL & Power BI | AnalytiX Labs
- Data Visualization & Analytics – NASSCOM FutureSkills Prime (Score: 94% – Gold)
- Data Science Job Simulation – BCG X | Data Analytics Job Simulation – Deloitte
- *The Ultimate Job Ready Data Science Course – CodeWithHarry*
Completed: February 2026
Covered Data Analysis, Python, and Machine Learning fundamentals
